Kunstraum Richard Sorge is proud to present 18 x 24: a fundraising exhibition benefiting non-profit art association LA54 Berlin.

Only limited by the 18 x 24 cm size, a large group of international Berlin-based artists graciously contributed small works to this exhibition project that amounts to a kaleidoscopic token of the city's artistic exuberance.

Within its prosaic restraints, the show comprises an inspiring array of traditional, conceptual, ephemeral and poetic positions.

Art Association LA54 Berlin organizes an ambitious range of exhibitions and art events. The goals of this multicultural artistic community (consisting of visual artists, musicians and curators) are international artistic cooperation, maintaining affordable spaces for art, and propagating Berlin's underground spirit against the ruins of the "Creative Cities" ideology.
